

## Luca d'Agliano

Luca d'Agliano was born in Turin on July 4th, 1961. In September 1980, he went up to Churchill College, University of Cambridge, where he read philosophy and then economics. On taking his Bachelor of Arts degree in 1983, he was awarded a scholarship by the Fondazione Luigi Einaudi, Turin, and was admitted to St. Anthony's College, University of Oxford. Here, under the guidance of Amartya Sen, he studied questions relating to developing countries and welfare economics.

It was Luca's vision that the study of economics should be "... continually carried over into practical applications, above all when attempting to solve problems that limit the growth of man's well-being. For this substantially ideological reason, it becomes important to combine close study of purely theoretical matters with a study of the problems afflicting the developing countries in their struggle against poverty [...]".

Nearly a year later, Luca d'Agliano lost his life in a road accident (June 1984).

## Centro Studi Luca d'Agliano

The Centro Studi Luca d'Agliano was founded in Turin in 1986 by the family of Luca d'Agliano, his friends, and some of his teachers. It is a non-profit research institution contributing original research in the field of international and development economics. Particular emphasis is placed on the training of young scholars and in giving them the opportunity of acquiring a truly international perspective. The activities of the Centro Studi mainly focus on academic research, but it also greatly contributes to the policy debate.

## Migration Observatory

The Migration Observatory is a Centro Studi Luca d'Agliano - Collegio Carlo Alberto joint research initiative funded by the Compagnia di San Paolo.

The main objective is to study analytically topical issues on migration, such as the economic and social impact of immigration on receiving and sending countries or the implications of different migration policies, from an international and cross-disciplinary perspective. Also, it aims to construct a critical mass of academic knowledge in order to increase the visibility of Collegio Carlo Alberto and Centro Studi Luca d'Agliano in the policy debate.
